

Presenting at the Engineering Days 2024

Dear Ladies and Gentlemen,

The Engineering Days will take place for the eighth time at the end of this year. As usual, the focus this year will be on a professional, competent and innovative program. **We are looking for contributions in line with this year's motto:**

PREFABRICATION IN TRANSITION
Building a successful future through innovation

This handout provides all the information you need to submit a presentation. We are looking forward to your contribution proposal and would be delighted to welcome you at the Engineering Days 2024.

Details

Lecture	20 Minutes
Language + simultaneous translation	German/English German/English
Deadlines for submission	
- Submission	15. May 2024
- Set the program	end of June 2024
- final lecture documents	15. October 2024

To submit your presentatino, please complete and return the application form (pages 3 & 4) to: organisation@engineeringdays.at

Organizational notes:

- By submitting a presentation, the presenters agrees to the publication of their presentation.
- The organizers are responsible for selecting the presentations. After the program has been fixed, all submitters will be informed immediately whether their presentation has been selected.
- The final presentation must be created in Microsoft Powerpoint (Engineering Days slide master) and is subject to fixed specifications - these and the slide master will be sent to the presenters after their presentation has been selected.

Program Focus 2024

The aim of the conference is to present current topics, trends, and innovations in the form of presentations and to encourage discussion. To this end, the conference is made up of several sessions with coordinated content.

- Recruiting & training in a precast plant
- Sustainability in precast production
- Application of modern IT technologies
- Modular construction & additive construction
- Planning & implementation of IT projects
- Hybrid construction
- Quality management in the precast plant
- Best practices in the BIM planning chain
- Digital Twin
- AI in the construction industry
- Early contractor involvement
- Product innovations

You can also submit a topic that is not included in the above list but offers added value for the audience. Please note that presentations may not be of a promotional nature.
