

## ENGINEERING DAYS 2019

# Engineering Days in Salzburg – more than a precast concrete congress

## Engineering Days in Salzburg – mehr als ein Betonfertigteilkongress

**For the 11th time** the Engineering Days and industry meeting place for the precast concrete industry will take place from the 26<sup>th</sup> until the 27<sup>th</sup> of November 2019 at the Salzburg Congress, in the heart of Mozart's city. The Engineering Days are a global platform for specialists in the precast concrete industry and take place alternately in China and Austria every year.

The core issues of the Engineering Days are the get-together of all key players, the exchange of expertise and the knowledge transfer of new trends and applications in the precast concrete industry. This year's program is all about „digitization in the precast industry“. Keep your finger on the pulse and find out more about it in thrilling lectures and exciting workshops.

The event forms the heartbeat of the industry with its diverse program around innovations and their implementation in practice as well as the presentation of latest technologies.

The congress is organized by the event trio Precast Software Engineering, Prilhofer Consulting and RIB SAA Software Engineering. The registration for exhibitors and visitors is already possible – order your ticket quickly and conveniently online on the new launched website [www.engineeringdays.at](http://www.engineeringdays.at).
